

Bespoke handcrafted curtain poles

BESPOKE HANDCRAFTED CURTAIN POLES

Hunter & Hyland pole diameters range from 9mm to 76mm. A stunning finial collection complements the pole offering together with unrivalled standard and bespoke brackets and matching rings. Wooden curtain poles are available in virtually any finish; with Farrow & Ball colour match as a standard painted palette and a full range of stained and specialist finishes. Brass poles are available in 15 plated finishes and acrylic poles complete the bespoke collection. We are very proud of our mission to manufacture as much as possible in the UK.

We hand bend and shape our poles for bay and shaped windows to specific measurements and angles and most poles are offered with both corded and un-corded options with motorisation completing the bespoke range.

Holdbacks, embraces and swing arms offer beautifully co-ordinated accessories to complement a room scheme. As all products are bespoke, we can create stunning solutions for almost any window or design – just ask.

Hunter & Hyland creates beautiful bespoke curtain poles, all of which can be made to your specifications. There are hundreds of colour and finish options and countless ways to combine the product range. The following pages offer a gallery of pole combinations to help you make your product selections.

Pole – Plain wood pole in aged gold leaf speciality finish | Finials – Wood russian orb in aged gold leaf speciality finish Brackets – Brass centre brackets in antique brass | Rings – Reeded wood rings in aged gold leaf

Pole – Plain wood pole in distressed pewter | Finials – Acrylic ball with brass cap plated polished chrome Brackets – Vision ring brass brackets plated polished chrome | Rings – Flat face solid brass rings plated polished chrome

Pole – Plain brass pole plated polished chrome | Finials – Large crystal bubble ball with brass cap plated polished chrome Brackets – Vision cup brass brackets plated polished chrome | Rings – Flat face solid brass rings plated polished chrome

Pole – Ash wood plain pole in chalkwax medium oak | Finials – Ash wood plain ball in chalkwax medium oak Brackets – Ash wood cup brackets in chalkwax medium oak | Rings – Ash wood rings in chalkwax medium oak

Pole – Plain wood pole painted F&B Elephant's Breath | Finials – Wood reeded ball painted F&B Elephant's Breath Brackets – Overclip brass centre brackets in antique brass | Rings – Hollow brass rings in antique brass

ASH WOOD FINISH

Both hyland wood and ash curtain poles can be hand finished with these stains. Available in matt, satin or gloss finish. Finish samples available on request.

Hunter & Hyland offers Farrow & Ball colour match as standard.

For a small surcharge, colour match is also available for all other paint brands and RAL colours including:

- The Dulux colour palette
- Crown
- Paper & Paints
- Fired Earth
- Paint Library
- Little Greene Paint Co
- Zoffany
- Sanderson

Finish samples available on request.

WOOD HIGHLIGHTED FINISH

HAND DECORATED FLUTED

HAND DECORATED REEDED

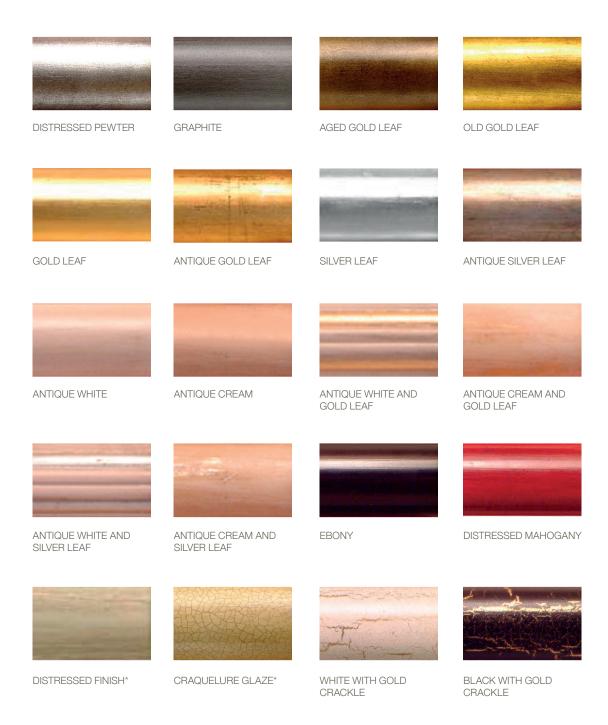

METALLIC GLITTERBALL GOLD

A true speciality option of hand decorating and highlighting of a pole and/or finial. The options are endless – any two colours (or stain and a colour) can be combined, from the simple elegance of white or cream with gold to the opulence of midnight blue with silver. Finish samples available on request.

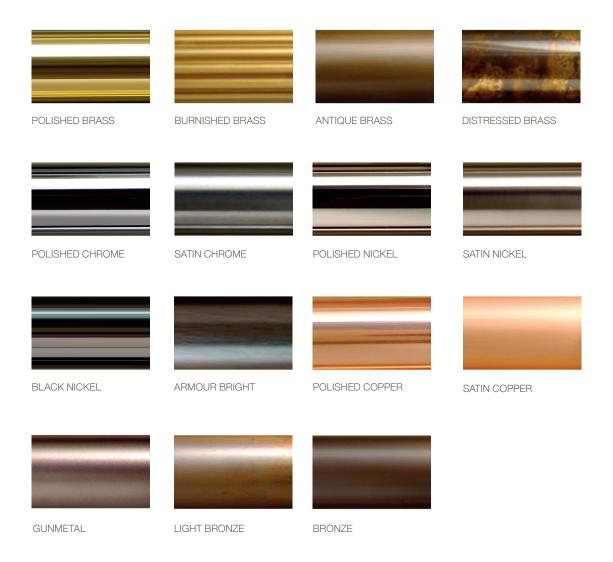

SPECIALITY WOOD FINISH

^{*} Available in any Farrow & Ball paint colour.

BRASS FINISH

Brass poles, finials and brackets can also be painted. Finish samples available on request.

An extensive range of beautiful finials complement the Hunter & Hyland curtain pole offering. There are wood, brass, crystal and acrylic finials, most of which are interchangeable and can be used with poles of the same diameter made from any medium. This offers full design versatility when specifying decorative hardware and therefore creates a curtain pole as individual as the room design itself.

WORKROOM SUPPLIES

Hunter & Hyland also offers a full workroom supplies service both to order and via our trade counter in Leatherhead. These supplies include everything a busy workroom needs from lining and interlining to hooks and tools. A truly extensive range of supplies is available including stair ropes and rods, decorative accessories, tracks and rails and Roman Blind making components.

EXPRESS

Wooden curtain poles

Hunter & Hyland is pleased to offer Express curtain poles. These ranges all offer beautiful poles with coordinating finials, rings and brackets. They can be dispatched at speed and offer a cost-effective solution for windows. The poles are available in various painted and stained wood options and also in wrought iron.

SLIMLINE MODERN METALS

Curtain poles for stylish contemporary living

An updated and enhanced range of luxury contemporary window dressings is now available. These include decorative pole sets in small and large facia sizes, 28mm and 35mm curtain poles and a Roman Blind pelmet system. Various stylish finishes are available.

The range benefits from precision made German components together with the robust strength of brass and aluminium plated hardware.

OTHER BRANDS

Silent Gliss products are all available to order as are Integra, Swish and Sunflex. Our sales office can help you with the selection of the right products to suit your project.

If you would like any help or advice, please do not hesitate to call us on +44(0) 1372 378511.

IMPORTANT NOTES

- Once an order is received, it cannot be cancelled or altered for any reason. Please ensure all measurements and specifications are correct.
- When ordering, please specify clearly whether the measurement is overall (end of finial to end of finial) or pole length only.
- Please specify clearly whether the measurements are metric or imperial.

GENERAL NOTES FOR WOODEN PRODUCTS

- · The large majority of timber used by Hunter & Hyland is farmed from managed plantations and at least 90% of all of our timber is of PEFC or FSC standard.
- All stained and painted wood is available in a high gloss piano, satin or matt finish. The standard finish will be satin unless you specify otherwise.
- The finish range available is a full spectrum of custom colours for wood - we can match virtually any paint colour and offer various stained finishes with Farrow & Ball colour match as a standard painted palette.
- We create poles in various woods, primarily focusing on hyland, ash and oak varieties. The different timbers used by Hunter & Hyland will react in different ways to staining, therefore colour variations may occur. Colour variation may also occur with the same wood type, due to different batches of wood being naturally lighter or darker, or due to the grain being tighter or wider. Although every effort will be made to minimise colour variation, we are unable to guarantee a perfect match every time. Actual colours may vary slightly from those shown in the catalogue due to limitations in the printing process. If you have any doubt, please request a sample of your chosen stain/colour.

We take great care to produce the closest colour match to your sample, however, we are unable to guarantee an exact colour match on wood painted to match a fabric or wallcovering etc, due to the construction and make up, the visual illusion of colour and colour combination. If you have any doubt, please request a sample of your chosen colour.

GENERAL NOTES FOR BRASS PRODUCTS

- Take care We recommend the use of gloves when handling or fitting polished and lacquered brass poles.
- To clean solid brass, simply use a dry dusting cloth to wipe it. Do not use any chemical cleaners.
- A re-polishing/re-lacquering service is available for existing brass curtain poles and accessories.
- All brass articles can be gold plated up to 4 microns thickness.

GENERAL NOTES FOR CLEAR ACRYLIC **PRODUCTS**

- Clear acrylic is UV stabilised and will not yellow with
- Clear acrylic poles are compatible with the Metal Vision ends, brackets and rings.

All information and specifications given are correct at time of going to press. The policy of the Company is one of continuous advancement, development, improvement and enhancement to its products, and the Company therefore reserves the right to change, amend or alter details, designs, dimensions or specifications to all goods described in this Catalogue or the

- All wood finials are supplied with wood threaded dowel screws and protective plug.
- All wood finials (ends) can be painted or stained.
- Many designs are hand carved.
- · Wood finials available in hyland wood, beech, ash or oak.
- * MTO Made To Order finials up to 4 weeks to produce.
- ¹ Cap fits over pole to a depth of 45mm.
- ² Fixing screws are supplied do not overtighten (two full revolutions is sufficient to secure the dowel to the disc); alternatively the disc can be glued, nailed or screwed from the outside into position.

Description	LxW					
	40mm	cap depth	50mm	cap depth		
Acrylic Ball with Clear Cap	112x64	40mm	152x80	47mm		
Acrylic Ball with Brass Cap	112x64	40mm	152x80	47mm		

- Made from the finest European lead crystal, individually made and handcrafted by expert artisans.
- Suitable for 51mm poles only available with a cap or flat base.
- Brass base or cap can be plated or painted.
- When attaching a crystal finial and base to a brass pole, the finial will come complete with a 1/4" Whitworth threaded dowel screw.
- When attaching a crystal finial and base to a wood pole, the finial will come complete with a wood threaded dowel screw.
- · When attaching a crystal finial and cap to a brass, wood or an acrylic pole, the finial will come complete with a small grub screw so that the finial is neatly and securely attached to the pole (Allen key provided).
- · When attaching a crystal finial to an acrylic pole we recommend the use of a cap. A base is not suitable as the fixing screw will be evident and clearly visible.
- Acrylic ball end and cap securely fastened to pole by tightening the small grub screw (Allen key provided).
- Acrylic ball brass base can be plated or painted.

- Bracket projection is measured from the wall to the back of the pole.
- Fixing screws are supplied with all brackets when supplied with a pole.
- Adjustable brass brackets extend from 100mm to 150mm. Adjustable wood brackets extend from 95mm to 200mm.
- Bespoke brass and iron brackets can be made to your requirements (a drawing or template must be provided). Double pole brackets can also be made.
- · Projections and backplates can be amended on brass and iron brackets.

CORDED POLES

- All Hunter & Hyland corded poles comply with BS EN 13120 standards regarding child safety.
- Suitable for all types of curtain headings all headings must hang below the curtain pole.
- All 38mm, 51mm, 63mm and 76mm wood and brass poles (except the Square, Hexagonal, Carousel and Barley Twist wooden poles), can be corded with a Hunter & Hyland Skytrack.
- For smooth operation and in order to avoid unnecessary strain on the internal mechanics, full length curtains should sit just above the floor level and not drag along the floor.
- We recommend that poles over 300cm (10") are supplied with a right hand and a left hand pull set.
- Suitable for use with electric motors such as the Hunter & Hyland Phantom motor.
- Unless stated otherwise and whereever possible, we will complement the colour of the Skytrack to the colour of the pole. Available colours are gold, silver, bronze, black and white. The track can also be painted to match the pole for an additional charge.
- Unfinished railway poles will be fitted with gold Skytrack.
- All inverted corded railway poles from 51mm upwards are treated with Hunter & Hyland silicone tape to aid continual smooth running and operation and then tested before leaving the factory.
- Plain, fluted and reeded wood and plain brass corded railway poles can be bent and angled for bay windows.
- We recommend the use of tension pulleys for all bent, angled or swept bay windows.

INVERTED CORDED RAILWAY WITH RINGS

- Inverted corded railway poles combine the ease and practicality of our standard corded poles with the added beauty and attraction of rings.
- The overlap arms are designed for a 75mm (3") leading edge when using handmade pinch pleats or goblet pleats.
- Improved mechanics for smoother and quieter operation.
- All poles feature a unique "stack back" stop to prevent the curtains from going beyond your desired position, keeping the pleats perfect and your curtains well dressed, as well as a specially formulated siliconised drag resistant tape - to prevent the rings from "grabbing" (tape is not available on unfinished inverted railway poles or sold separately).
- Concealed, discreet ball bearing end pulley ensures effortless movement.

CORDED WITH GLIDERS

- Concealed, discreet ball bearing end pulley ensures effortless movement.
- Corded Railway poles with Skytrack inserted into the underside of the pole come complete with gliders (12 per metre) brass overlap arms.
- Gliders can be easily added or removed by using the specially designed pulley and unique cover plate assembly (full instructions included).
- The overlap arms are designed for a 75mm (3") leading edge when using handmade pinch pleats or goblet pleats.
- Improved PTFE coated gliders for smoother, quieter operation and reduction in friction.

BRACKET OPTIONS

Overclip end bracket or standard end bracket - see bracket section for details.

ACCESSORIES OPTIONS

- Choice of pulley mechanism available traditional cord weight or attractive brass tension pulley on an endless cord.
- Hunter & Hyland cord weights comply with BS EN 13120 standards regarding child safety.
- Cord drop can be easily altered whilst the pole is in situ.

MOTORISED POLES

- The motor is a Forest Shuttle made by Forest Drapery
 Hardware. It works with all leading home automation systems.
 Contact us to confirm compatibility.
- Can be used with 51mm, 63mm or 76mm wood or brass poles.
- Each pole set comes complete with motor, receiver, transformer with 3m of cable, a fitted 3 pin plug and handheld remote control.
- Suitable for home automation systems to be installed only by a qualified electrician.

MOTOR HOUSING OFFSET

- · Ensures curtains run straight and true, no unsightly bulge.
- Wear resistant pulley housing equipped with high quality ball bearings.
- Reinforced "Kevlar" transport belt for smooth, quiet movement.
- · Motor can be positioned on either the left or right hand side.
- · Motorised poles require a minimum projection of 100mm.
- · Easy to install no electrician required:
 - 1. Motor's driveshaft fits directly to the pulley housing;
 - Once located onto the driveshaft, simply twist the motor into position;
 - 3. Push the lock slide up to secure the motor in place.

MOTOR

- · Operating voltage 24V
- Power output +/- 40 Watt
- · Curtain speed 15cm/sec
- · Indoor use only
- · Manual override in case of power failure
- · Dimensions 230mm x 50mm x 70mm

WIRELESS RECEIVER

- · Indoor use only
- · Dimensions 88mm x 40mm x 23mm

TRANSFORMER

Complete with wall cradle

- · Dimensions 107mm x 50mm x 28mm
- · Length of cable to motor 50cm
- · Length of cable to 3 pin plug 3 metres (approx.)

REMOTE CONTROL

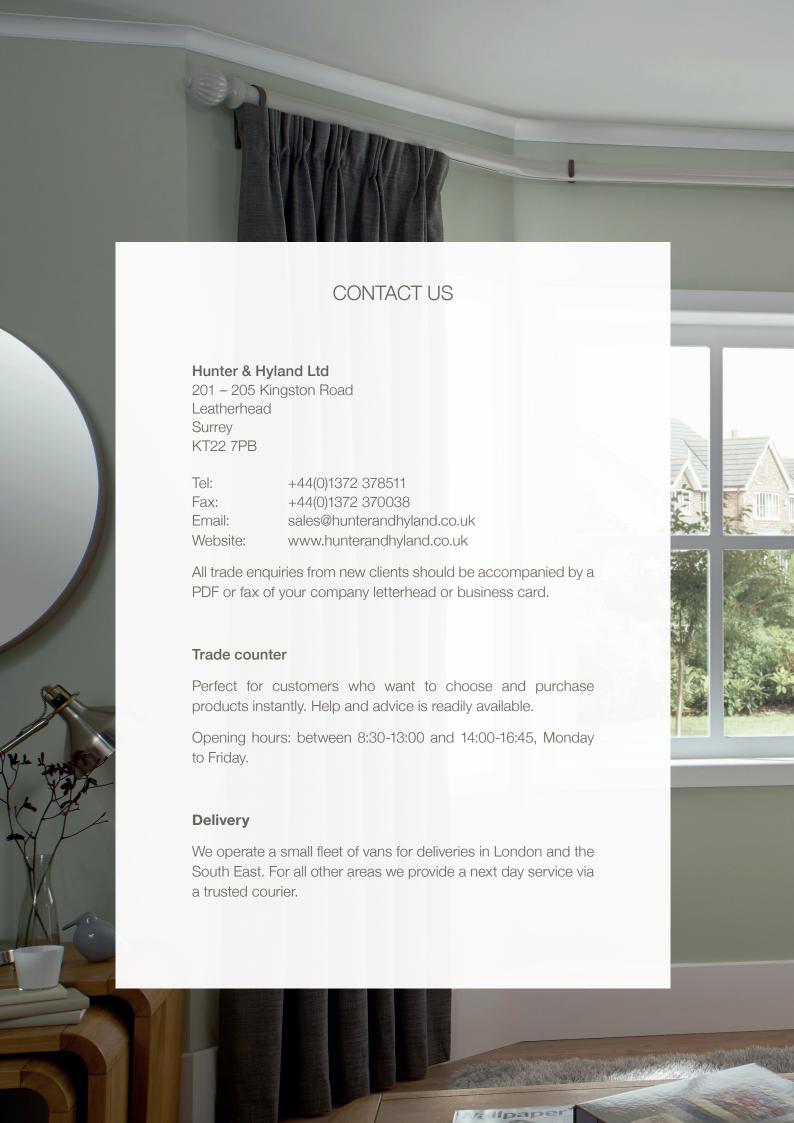

Complete with wall cradle

- · Dimensions 110mm x 60mm x 12mm
- · 3V battery supplied (CR2430)
- · Features: clock, manual open/close and timer
- 15 channels each channel can control up to 20 motors
- · Colour black
- "Stop" button feature can stop curtains at any point
- · Ultra slim and compact

WIRELESS WALL MOUNTED CONTROL SWITCH 11681-6-00 | stock unit: each

- · Dimensions 85mm x 85mm x 10mm
- · 3V Lithium battery supplied (CR2032)
- Controls will "Open", "Close" and "Stop" the travel of the curtains
- · Colour cream
- · Ultra slim and compact
- · Fixing screws and wall plugs provided
- · Ultra slim and compact
